INSTRUCTION DIRECTIVE

I understand that as a competent adult I have the right to make decisions about my health care. There may come a time when I am unable, due to physical or mental incapacity, to make my own health care decisions. In these circumstances, those caring for me will need direction concerning my care and they will require information about my values and health care wishes. In order to provide the guidance and authority needed to make decisions on my behalf:

A) I, _____, hereby declare and make known to my family, physician, and others, my instructions and wishes for my future health care. I direct that all health care decisions, including decisions to accept or refuse any treatment, service or procedure used to diagnose, treat or care for my physical or mental condition and decisions to provide, withhold or withdraw life-sustaining measures, be made in accordance with my wishes as expressed in this document. This instruction directive shall take effect in the event I become unable to make my own health care decisions, as determined by the physician who has primary responsibility for my care, and any necessary confirming determinations. I direct that this document become part of my permanent medical records.

Part One: Statement of My Wishes Concerning My Future Health Care

*In **Part One**, you are asked to provide instructions concerning your future health care. This will require making important and perhaps difficult choices. Before completing your directive, you should discuss these matters with your doctor, family members or others who may become responsible for your care.*

*In **Section B and C**, you may state the circumstances in which various forms of medical treatment, including life-sustaining measures, should be provided, withheld or discontinued. If the options and choices below do not fully express your wishes, you should use **Section D**, and/or attach a statement to this document which would provide those responsible for your care with additional information you think would help them in making decisions about your medical treatment. **Please familiarize yourself with all sections of Part One before completing your directive**.*

B) GENERAL INSTRUCTIONS: To inform those responsible for my care of my specific wishes, I make the following statement of personal views regarding my health care:

Initial ONE of the following two statements with which you agree:

1. _____ I direct that all medically appropriate measures be provided to sustain my life, regardless of my physical or mental condition

2. _____ There are circumstances in which I would not want my life to be prolonged by further medical treatment. In these circumstances, life-sustaining measures should not be initiated and if they have been, they should be discontinued. I recognize that this is likely to hasten my death. In the following, I specify the circumstances in which I would choose to forego life-sustaining measures.

If you have initialed statement 2 on page 1, please initial each of the statements (a, b, c) with which you agree:

a. _____ I realize that there may come a time when I am diagnosed as having an incurable and irreversible illness, disease, or condition. If this occurs, and my attending physician and at least one additional physician who has personally examined me determine that my condition is **terminal**, I direct that life-sustaining measures which would serve only to artificially prolong my dying be withheld or discontinued. I also direct that I be given all medically appropriate care necessary to make me comfortable and to relieve pain.

In the space provided, write in the bracketed phrase with which you agree:

To me, terminal condition means that my physicians have determined that:

_____

[I will die within a few days] [I will die within a few weeks]
[I have a life expectancy of approximately _____ or less *(enter 6 months, or 1 year)*]

b. _____ If there should come a time when I come **permanently unconscious**, and it is determined by my attending physician and at least one additional physician with appropriate expertise who has personally examined me, that I have totally and irreversibly lost consciousness and my capacity for interaction with other people and my surroundings, I direct that life-sustaining measures be withheld or discontinued. I understand that I will not experience pain or discomfort in this condition, and I direct that I be given all my medically appropriate care necessary to provide for my personal hygiene and dignity.

c. _____ I realize that there may come a time when I am diagnosed as having an **incurable and irreversible** illness, disease, or condition which may not be terminal. My condition may cause me to experience severe and progressive physical or mental deterioration and/or a permanent loss of capacities and faculties I value highly. If, in the course of my medical care, the burdens of continued life with treatment become greater than the benefits I experience, I direct that life-sustaining measures be withheld or discontinued. I also direct that I be given all medically appropriate care necessary to make me comfortable and to relieve pain.

*(Paragraph **c.** covers a wide range of possible situations in which you may have experienced partial or complete loss of certain mental and physical capacities you value highly. If you wish, in the space provided below you may specify in more detail the conditions in which you would choose to forego life-sustaining measures. You might include a description of the faculties or capacities, which, if irretrievably lost would lead you to accept death rather than continue living. You may want to express any special concerns you have about particular medical conditions or treatments, or any other considerations which would provide further guidance to those who may become responsible for your care. If necessary, you may attach a separate statement to this document or use **Section D** to provide additional instructions.)*

Examples of conditions which I find unacceptable are:

_____

_____

_____

_____

C) SPECIFIC INSTRUCTIONS: Artificially Provided Fluids and Nutrition; Cardiopulmonary Resuscitation (CPR). *On page 2 you provided general instructions regarding life-sustaining measures. Here you are asked to give specific instructions regarding two types of life-sustaining measures-artificially provided fluids and nutrition and cardiopulmonary resuscitation.*

In the space provided, write in the bracketed phrase with which you agree:

1. In the circumstances I initialed on page 2, I also direct that artificially provided fluids and nutrition, such as by feeding tube or intravenous infusion,

_____

[be withheld or withdrawn and that I be allowed to die]
[be provided to the extent medically appropriate]

2. In the circumstances I initialed on page 2, if I should suffer a cardiac arrest, I also direct that cardiopulmonary resuscitation (CPR)

_____

[not be provided and that I be allowed to die]
[be provided to preserve my life, unless medically inappropriate or futile]

3. If neither of the above statements adequately expresses your wishes concerning artificially provided fluids and nutrition or CPR, please explain your wishes below.

D) ADDITIONAL INSTRUCTIONS: *(You should provide any additional information about your health care preferences which is important to you and which may help those concerned with your care to implement your wishes. You may wish to direct your family members or your health care providers to consult with others, or you may wish to direct that your care be provided by a particular physician, hospital, nursing home, or at home. If you are or believe you may become pregnant, you may wish to state specific instructions. If you need more space than is provided here you may attach an additional statement to this directive.)*

_____

E) BRAIN DEATH: *(The State of New Jersey recognizes the irreversible cessation of all functions of the entire brain, including the brain stem (also known as whole brain death), as a legal standard for the declaration of death. However, individuals who cannot accept this standard because of their personal religious beliefs may request that it not be applied in determining their death.)*

Initial the following statement only if it applies to you:

_____ To declare my death on the basis of the whole brain death standard would violate my personal religious beliefs. I therefore wish my death to be declared solely on the basis of the traditional criteria of irreversible cessation of cardiopulmonary (heartbeat and breathing) function.

F) AFTER DEATH - ANATOMICAL GIFTS: *(It is now possible to transplant human organs and tissue in order to save and improve the lives of others. Organs, tissues and other body parts are also used for therapy, medical research and education. This section allows you to indicate your desire to make an anatomical gift and if so, to provide instructions for any limitations or special uses.)*
